1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/27/2006 has been entered.

Election/Restrictions

Claims 19-32 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a non-elected species 2 which calls for the sidewall profile of the deep trench comprising at least three edges as recited in claim 19 or a special shaped as recited in claim 32, there being no allowable generic or linking claim. Election was made **without** traverse of species 1 represented by Fig. 3 in Paper filed 05/03/2005. Species 1 as elected by applicant does not provide support for a sidewall profile of the deep trench comprising at least three edge as recited in amended claim 19 or a special shaped as recited in new claim 32. Indeed, species 1 discloses a sidewall profile of the deep trench on the overlapping portion being a line shape. It is the species 2 of Fig. 5 that discloses the sidewall profile of the deep trench on the overlapping portion comprising at least three edges or special shaped (see canceled non-elected claims 4-7). It is noted that applicant admitted canceled non-elected claims 4-7 directed to species 2 of Fig. 5.

The amendment filed on 12/27/2006 presenting only claims drawn to non-elected species is non-responsive (MPEP § 821.03). There is no claims that are readable on the elected species (species 1) because all the claims are directed to another species 2 which is a different patentably species from the elected species 1.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
